

First Wednesday Family Group

Our 1st Wednesday Family group got together on the 1st of October to assemble hygiene and school kits . . . This group gathered around a simple dinner of beans, rice, and water symbolic of a typical meal in the world. After the meal, the families that gathered heard a talk by an Oregon State University student from the Congo about his life. They then gathered around tables piled high with donated items to make the kits. The kits were then boxed and sent out by UPS the next day. We hope these kits help those in need.
